

Professional Program Pancreatic Cancer

“ Our colleagues will participate in a multidisciplinary clinical case-presentation session with the whole GI tumor unit team

CIOCC is a highly specialized cancer center with well staff multidisciplinary units in the major cancer types. These units, led by senior physicians, not only organize the care of these patients but also carry on clinical and translational programs integrating new drugs, laboratory models, molecular pathology and imaging.

■ MEDICAL ONCOLOGY

On this day of training our colleagues will participate in a multidisciplinary clinical case-presentation session with the whole GI tumor unit team in which they could ask doubts about the management of the different clinical situations of pancreatic cancer patients. After the clinical session they will participate in the multiple activities of the unit:

- Outpatient clinic.
- Inpatient management.
- GI Clinical Trial Session in which all the patients included in clinical trials are reviewed in detail

■ START UNIT

The mission of START Madrid is to accelerate the development of new anticancer drugs with the purpose of improving quality of life and survival for patients with cancer. START Madrid consists of a team of highly trained physicians and staff with extensive experience in Phase I clinical trials research.

■ CENTRO NACIONAL DE INVESTIGACIONES ONCOLÓGICAS (CNIO)

Cnio is the national cancer research center of Spain. Cnio has an agreement for translational research with CIOCC-HMhospitales. In this visit, our colleagues how the research center is organize. They will visit the different units of the center. They could enjoy a personalized talk with researches of their interest.

■ RADIOTHERAPY

On this day of training they will stay with the radiotherapist GI team who will show them the different new techniques to treat pancreatic cancer patients, ways of treatment planification and treatment organization.

■ GI TUMOR SURGERY TEAM

They will be in the operating rooms with GI Tumor Sugery Team in complex pancreatic cancer surgery.

AGENDA INTERNATIONAL ONE WEEK VISIT

MONDAY
